

Amongst the more than 300 spontaneous settlement sites in PaP, the Camp Coordination and Camp Management cluster has identified 19 priority sites which host a combined total of 180,000 people (more than 5,000 people in each site) for decongestion. It is planned to incentivize these populations to move to planned settlements in periphery locations.

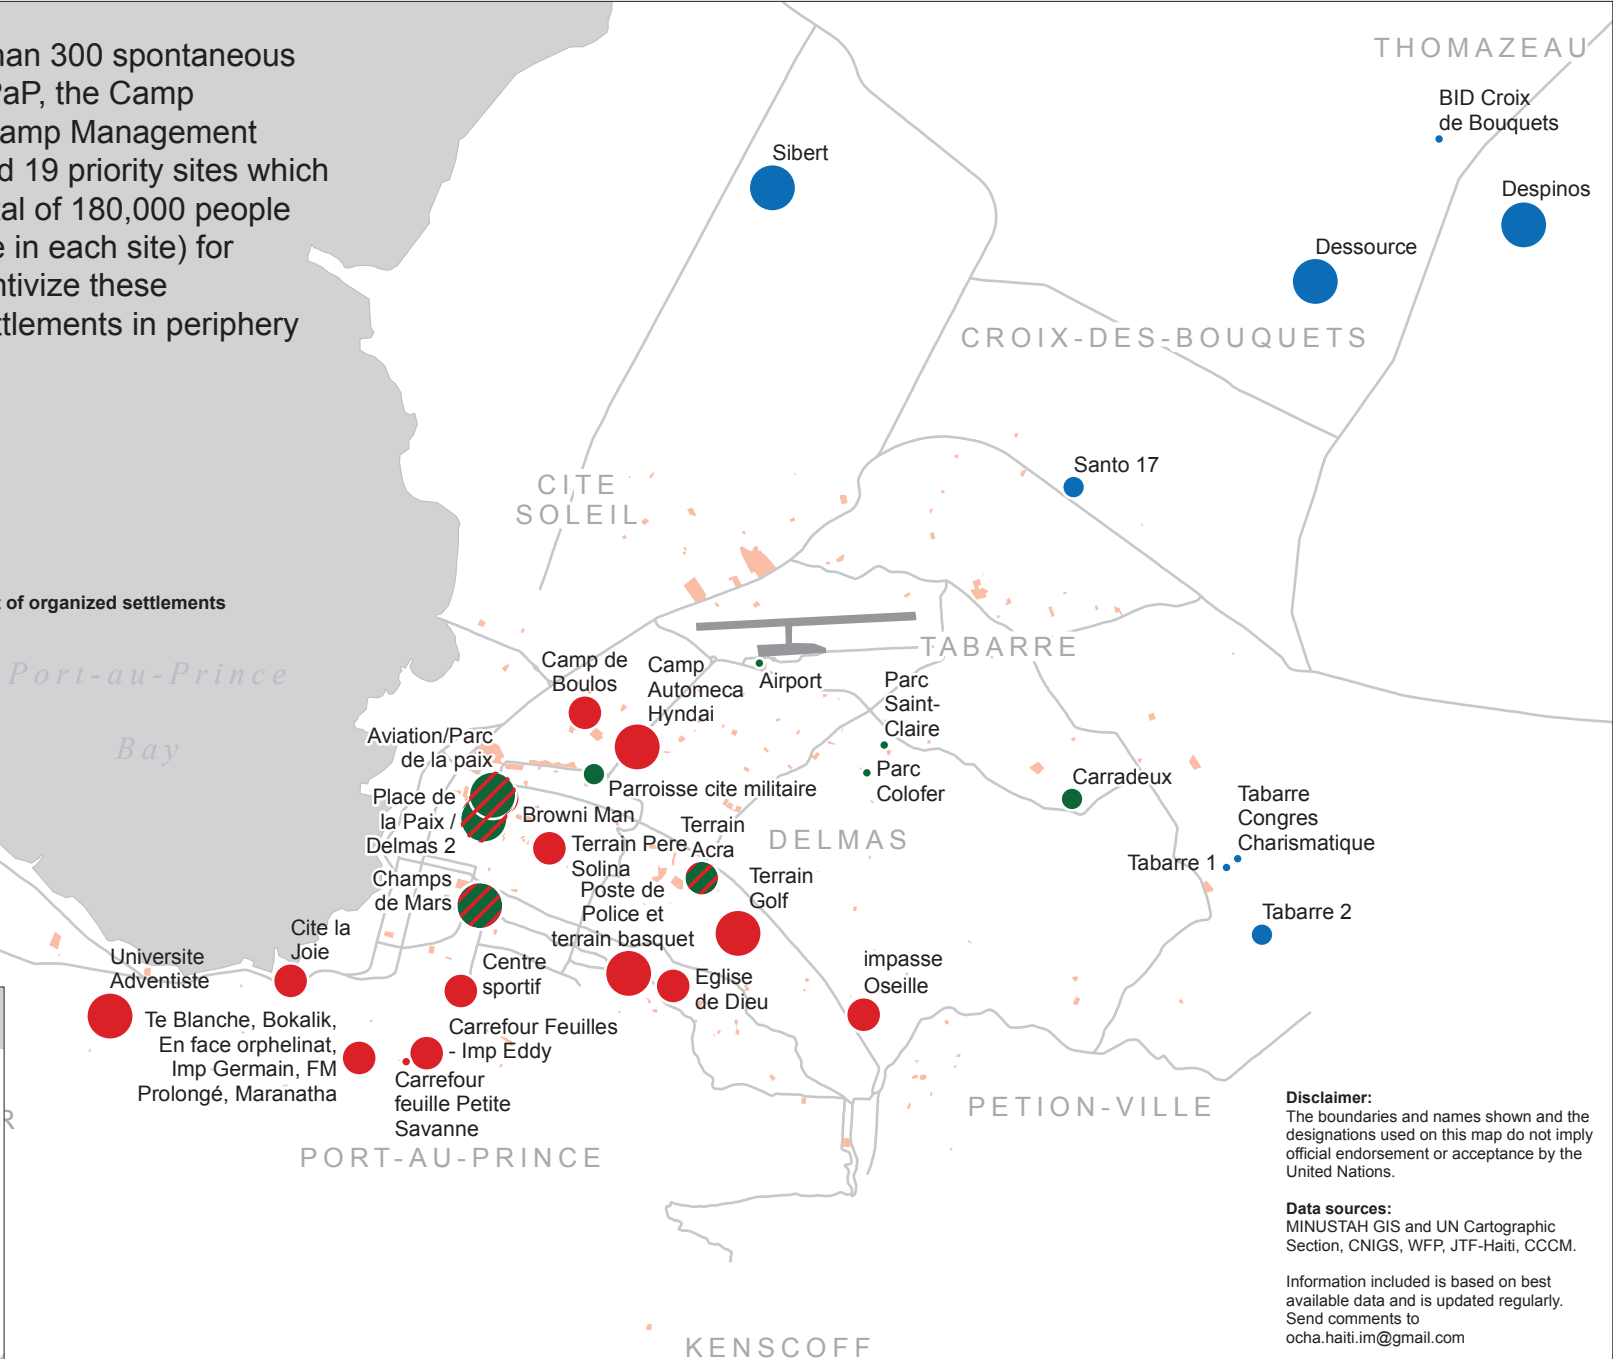

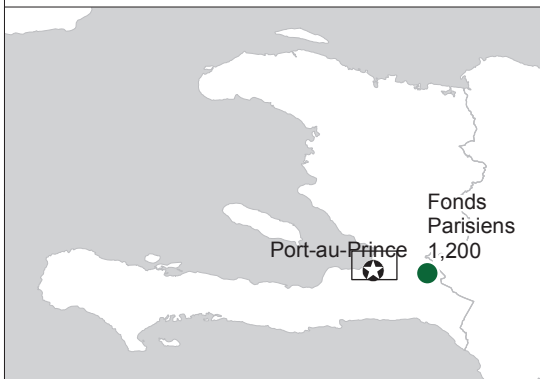

1,100,000 in need of shelter

- 10 established organized sites
- 19 priority sites for decongestion
- 8 Government suggested sites for establishment of organized settlements

Number of people

- > 10,000
- > 1,000
- Possible Internally Displaced People site

0 500 m
